SECTION 2 – Requested Resources (to be completed by requestor)

Requested Resources:

(1) When you complete the table, *do not provide host names*. **Supply only server names and IP addresses** or subnets with accompanying subnet masks

(2) *Destination* designates the host that accepts the connection from the source.

(3) For *Port*, specify the number, not the name, of the port and if "TCP" or "UDP" based.

(4) Describe details and if currently available.

Resource Name/Type	Server names and IP Address(es) of Destination or Subnet	Destination Port #	Protocol (TCP, UDP, ICMP)	Description of Service
Server remote access	10.171.40.158	ALL	TCP/UDP	Remote access for software installation
